HUNGARYStrike of Miners at Pecs.

The following report from our representative in Budapest comes from a casual though well-informed source, but should be treated with reserve as we have no means of confirming this information.

1. In August last approximately 60 coal miners and their families were deported from Pecs. This caused great bitterness among the miners in the Pecs region and recently there has been a serious strike among the miners.

2. It is reported that the men at one of the mines stages a "stay-down" strike. The situation was considered so serious that Erno Gerb went to Pecs to handle it.
